

The Civic Action Project • Proposal

Effective citizens are able to solve problems and they understand the role that policy plays in doing so.

During this course, you are going to address a problem or an issue by taking civic actions. As you try to make an impact, you'll explore relationships between the issue, your actions, and policy.

Another thing effective citizens are good at is convincing others that their concerns, ideas, and views are important.

Convince your teacher that the problem, issue, or policy you want to try to impact is important.
