

Web Citizen Assignment: Responding to CAP Colleagues

There is a CAP community made up of thousands of students from schools around the country. You are part of this community.

The purpose of this assignment is to reach out to other CAP students, offer ideas, and be supportive.

Your assignment:

Choose a Blog or a Discussion entry posted by a CAP student from another school. Craft a response.

1. Cite the title of the blog or discussion entry in your subject line.
(Re: Save Mulberry Pool!)
2. Write an entry.

First: Compare and contrast how the issue plays out in your school/community.

If you see similar issues in your area, it can be helpful to share your take on causes and effects, etc. If your school/community doesn't have the problem or issue, it is still helpful to talk about why — what is different?

Second: Share your ideas about ways to address the issue and/or ask good questions to find out more about the issue and what civic actions the student is taking.

Third: End with a supportive statement or a resource (link, article, agency) you think the student might find helpful.

Your teacher will let you know if he or she wants to see your response before you post it.
